

## **Offer « Let's preserve the narcissi together ! »**

Narcissi are the symbolic flowers of the Vaud Riviera par excellence !

Every year in spring, they enchant numerous visitors from near and far. But unfortunately, the so-called " May snow " is becoming less and less. The narcissi population has been steadily decreasing since the 1960s.

The association Narcisses Riviera is committed to the preservation of the flowers. Throughout the year, it carries out a wide range of maintenance work: haymaking in the summer, cutting back the edges of the woods that prevent the narcissi from growing, or transferring bulbs during construction projects are just a few of them. And you can make a contribution too !

**Do an activity in favour of an emblematic flower for the Vaud Riviera while eating locally and receiving specialised information on the flora, fauna and history of the region? We look forward to spending a teambuilding day with you in the heart of nature!**

Included in the offer (price upon request) :

- Instruction and accompaniment of the maintenance work
- Local lunch in the middle of nature
- Information on the local flora and fauna and the history of the region
- Donation for the association Narcisses Riviera

**More information on [www.narcisses.ch](http://www.narcisses.ch)**
