

AILYOS 2020 educational course for children

AILYOS offers an educational trail for your children during the sculpture exhibition.

With each sculpture your children will have the opportunity to represent the sculpture with a drawing. Bring a block of paper and a pencil (or more). The drawings will then be published on the exhibition's facebook and Instagram. The drawings are to be sent to info@ailyos.ch. In case the drawing is not finished, you can find the photos of the artworks on our website www.ailyos.com.

Children will also have the opportunity to stimulate their creativity by finding a title for each of the artworks presented.

Other questions will also stimulate your children's imagination, understand the materials and techniques used to make the different sculptures, without forgetting certain elements about the region.

We wish you a great discovery and above all wonderful moments of family sharing.

AIGLE

1. Arc Bouttant

- Draw what you see.
- Suggest a title.
- Where have you seen this movement before?
