YOUR **LEARNING** EXPERIENCE

The dynamic Swiss Language Club runs over three weeks, with young people being given the opportunity to discover and explore a variety of new languages – and have a whole lot of fun at the same time!

Our team of qualified and experienced teachers combine classwork with practical exercises to make best use of our unique teaching settings. Before arrival, you will be given an online test to help us determine your level and assign you to the correct group. We welcome all levels, from beginners to advanced speakers.

Classes take place in the mornings, with a variety of exciting activities and excursions scheduled in the afternoons and evenings.

Each week a new activity package is available so that you can discover new destinations, sports, and experiences – and make new friends for life.

COURSE OUTLINE

WEEK 1: Language Development

The aim of the first week is to introduce or develop your language understanding in either French, English or German, and allow you to establish your group of friends on the programme.

WEEK 2: Personal Development

During the second week of the programme the focus is on your personal development, helping you to present yourself and your personal brand. To achieve this, career counselling, managing social media, and college preparation will be introduced in the language you are learning.

WEEK 3: New Language Development

The third week offers you the opportunity to explore a new language, including Mandarin, Russian or Spanish. The global business industry is constantly looking for young professionals who speak several languages, and this course will introduce the basics and allow you to access the language in the future.
