

MICE Factsheets

2024

LOCATION AND ACCESS

Villars and les Diablerets are located in the french speaking part of Switzerland and are the closest mountain resorts to Geneva Airport (120 km).

The access from Geneva is easy and fast by road and by public transports (1 change).

The villages are ideally located at 1200 meters above sea level and offer traditional architecture and various MICE facilities.

Geneva railway station	2h00
Lausanne railway station	1h20
Montreux railway station	1h00
Martigny railway station	1h20
Paris-Gare de Lyon	4h30
Via Lausanne, TGV Lyria

Zürich airport	250km

Geneva	1h15
Chamonix	1h30
Zermatt	2h00
Munich	5h30
Nice	6h00
Paris	6h15

ACTIVITIES

The resorts are ideally situated between the valley (400m.) and the glacier (3000m.). Due to this particular setting, activities from the valley can easily be combined with activities on the mountain or even on the glacier within a few kilometres.

In the valley: salt mines, vineyards, thermal bath.

Around the villages: all mountain activities, MICE hotels and infrastructures, wellness centre, ski resort (132 km from 1200m. to 3000 m.), winter and summer activities, 7.2 km toboggan run (winter), 18-holes golf course, hiking and mountain biking trails, high ropes course and via ferrata.

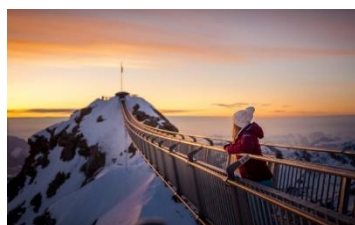

Glacier 3000 : Eternal snows, viewpoint, skiing (Nov. to May), suspended bridge, world's highest bobsleigh track (summer), dog sleds, snowbus and many more...

Numerous international events all through the year (Film Festival, International Climbing Worldcup, International Mountaineering Worldcup...) are organized in the resorts.

Villars and les Diablerets were host venues of the Youth Olympic Games in 2020 (ski and snowboard cross, mountaineering, alpine skiing), but also the Switzerland Travel Mart - Winter edition, Switzerland's most important inbound tourism exhibition during the winter season.

All guests staying overnight in a hotel from June to October get automatically a *Bienvenue* Card, that gives free access to 35 mountain transports and activities.
