In this valley of the Javroz, the monks of the Valsainte have found their source of life there. Take this looped tour for inspiration.

The trail starts from the car park, 2 km after Valsainte. In 1h30, it will take you to the heights, crossing the Féguelenets pasture and its large chalet, then a pleasant stroll in the forest to reach La Guisolande. It's quiet and beautiful. Some of the highest peaks of the Fribourg prealps are there, in front of you. From this trail, it is also possible to reach Lac Noir. On the pass, you arrive at the Auta Chia chalet (closed in winter). From this chalet you can reach La Berra. To get back to the starting point, take the forest road between clearings and forests. It takes 2 hours to complete. The loop can also be done in the other direction.

This unprepared itinerary is marked. You take this trail at your own risk. Snowshoeing is done in the mountains, therefore, certain rules must be respected for your safety.
