Social Media Plug-ins

We use social media plug-ins for Facebook, Twitter and Google Plus on our website. Plug-ins are deactivated by default on our website and therefore do not communicate any data. You may activate plug-ins by clicking on the button for the social media concerned.

When plug-ins are activated, your browser creates a direct connection to the servers of the social media concerned, as soon as you open one of the pages on our site. The content of the plug-in is sent directly from the social media to your browser and incorporated into the web page by them. Plug-ins can be deactivated again with a single click.

Additional information is available in the respective data protection statements of Facebook, Twitter and Google.
