Family paradise

Nendaz is the perfect destination for a family holiday, with plenty of mountain experiences for parents and children to enjoy together. Everything is designed to make family holidays easy, enjoyable and unforgettable.

Our favourites

The ideal place to learn to ski
In Nendaz, families can choose from three beginner areas, including one right in the heart of the resort. It's the perfect opportunity to enjoy a change of scenery while learning to ski at your own pace.

Sledge run in Siviez
Enjoy a memorable ride down a 3-kilometre sledging run surrounded by nature, then take the chairlift back up for an effortless ascent.

Family Entertainment*
- Arts & Crafts with Cheesy
- Family après-ski
- Biscuits by little bakers
- Curling
- Exploring the world of small animals
- Introduction to circus arts
- Life at the cow shed
- Ice Disco and mini ice disco
- Raclette in the cow shed
- Winter tales for children

Services
- Crèche du P'tit Bec (day-care centre)
- Alpilou nursery
- List of baby-sitters
- Games Library on request

2 play areas in winter

And summer in Nendaz

Family activities
In summer, Nendaz is a giant adventure playground for the whole family! From treasure hunts and themed trails to archery, children's biscuit-making workshops, marmot discovery activities and mountain scooter rides, there's plenty to keep everyone entertained. At Cheesy's Village, children can enjoy even more games and activities. The perfect way for the whole family to have fun while making the most of the fresh mountain air!

The bisses
Nendaz boasts eight bisses, which makes up a unique network of 98 kilometres of walks between 700 and 2'300 metres above sea level. Dug out of the ground, carved or suspended across the rocky faces between 1435 and 1876. These historic irrigation channels are an important part of the region's heritage and still play an essential role in agriculture today. With their shaded, mostly flat paths alongside the water, they are also popular walking routes.

Great idea

Nendaz Trekking
All-inclusive 3 or 4-day hiking tours in the mountains including overnight accommodation in mountain huts, full-board, and transfer.

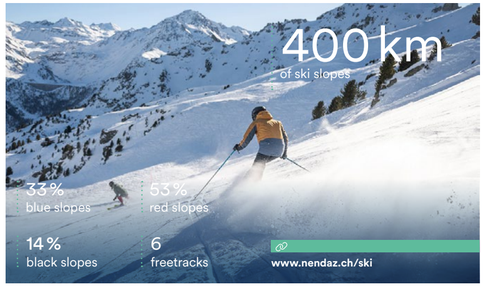
Three reasons to come to Nendaz in winter

1 The 4 Vallées, the largest ski domain in Switzerland

Nendaz is located in the heart of one of the largest ski areas in Europe. It consists of over 400 km of ski slopes, situated between 1,300 m and 3,300 m above sea level, awaiting all snow sport lovers. From beginners to more advanced skiers and snowboarders, everybody can find the perfect slope and enjoy the excellent snow conditions from December through to April.



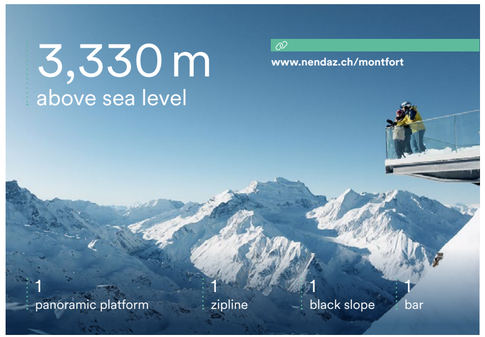
2 Mont-Fort

In a postcard-perfect mountain setting, the 360-degree panoramic view opens out onto dozens of peaks, including some of the most legendary in the Alps, such as the Matterhorn, Mont Blanc and Grand Combin.

Our favourites

The panoramic platform
Easily accessible by ski lift, it allows both skiers and non-skiers to enjoy the stunning views in complete safety.

The highest zipline in the world
With a departure point at 3,330 m above sea level, a top speed of over 100 km/h, a length of 1.4 km and a difference in altitude of 323 m, this is an adrenaline-filled experience, even for the most daring thrill-seekers!



3 The wide variety of outdoor activities

A day without hitting the ski slopes? Absolutely! With its wide range of outdoor activities, Nendaz has plenty to offer, from winter walks and themed trails to snowshoeing, sledging and much more!

Our favourites

Winter walks
The enchanting winter wonderland landscapes can be explored on foot along more than 100 km of winter footpaths, or via seven marked trails for snowshoe enthusiasts. You can even walk along one of Nendaz's eight bisses, the bisse du Milieu, which remains accessible throughout the winter.

Ski touring
Five marked ski touring routes offer an accessible introduction to ski touring. The ascent follows designated trails through beautiful winter scenery, with the chance to enjoy fresh powder and the peace of the mountains along the way. At the top, a mountain restaurant is never far away, while the descent follows groomed ski slopes for a safe return.

Our favourites

Rando'Miam
A winter walk or snowshoe hike with delicious gourmet breaks along the way

Raclette and life at the cow shed
Two activities at the cow shed:
- Visit the legendary Hérens breed of cattle in their winter quarters and learn all about the work carried out by the farmers
- Learn how to prepare a raclette in a cosy room right next to the cows.

Freetracks
For confident skiers looking for a new challenge, the lure of fresh powder and ungroomed terrain is hard to resist. But how can you venture beyond the groomed slopes while staying safe? The 4 Vallées offer six marked ski routes, known as freetracks, where you can experience the thrill of skiing on natural terrain. Marked in yellow, these routes are ungroomed but secured to help you explore beyond the pistes with greater peace of mind.

News

Murals created using a surprising technique
Monumental murals now adorn the façades of several traditional barns, celebrating local heritage while paying tribute to iconic figures from the village. They are the work of renowned artist Antoine Guignard, also known as LPVDA, who has gained international recognition for his distinctive "street-sanding" technique. Rather than using paint, the artist creates each image by sanding the wood itself. This unusual process reveals the wood's natural tones and grain, giving the works their distinctive sepia tones and striking appearance.

Mont Fort Boutique Hôtel
Located in the heart of Nendaz, the Mont Fort Boutique Hôtel is set to open soon. This new 4-star hotel will feature 44 rooms combining Alpine elegance and contemporary comfort, an intimate wellness area with a sauna and outdoor jacuzzi, and an event room. Le Lodge restaurant, also open to non-hotel guests, will serve a blend of traditional Swiss specialities and contemporary cuisine, while Nelson, the hotel bar, will offer a cosy setting around its fireplace.

New chairlift at Greppon Blanc
Featuring six-seater bubble chairs and a capacity of 2,600 passengers per hour, it will replace three existing lifts: two drag lifts and a two-seater chairlift. An intermediate station, located at the current departure point of the two-seater chairlift, will allow less experienced skiers to use only the easier slopes on the lower section. The new lift is the latest step in the ongoing development of the ski area. It follows the opening of the Prarion combined gondola and chairlift two years ago, which made travelling between Nendaz and the rest of the 4 Vallées much quicker and easier. The development of the ski area will continue over the coming years, with plans to replace the Tracouet gondola next, followed by the Tortin chairlift at a later stage.
