PRESS RELEASE

A wide range of attractive summer offers

In its summer marketing strategy, Nendaz Tourism has three main target audiences: active hikers and mountain bikers, families, and nature lovers.

Some of these deals have already proved their worth over the past few years; they are very popular with guests, which is why they are being continued from year to year. Three of them, the 'Nendaz Ebike Tour', 'In the mountains with the family' and 'Bisse Delight', are being introduced for the first time this summer. These offers inspire visitors to come to Nendaz and provide pleasant and easy ways to spend their holidays.
