INSTRUCTION MANUAL

# BIATHLETE TUTORIAL

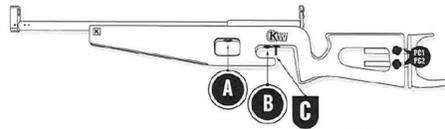

TEST YOUR CONCENTRATION!

## THE EQUIPMENT

The target

The laser rifle

## THE TARGET

### 1. Turn on the target

Press the button on the side. It will flash white once.

### 2. Place it on the provided stand

### 3. Reset

After having used the 5 laser shots, the target needs to be reset as follows:

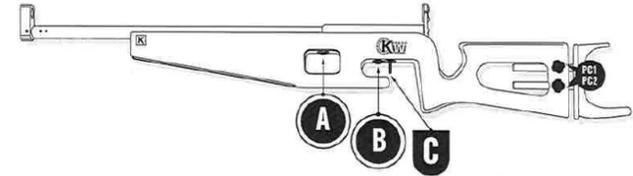

Aim at the target and hold for at least 5 seconds.

The target resets as soon as the laser touches one of its visual points.

## THE LASER RIFLE

### Load and shoot

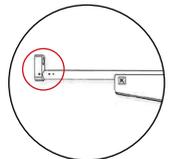

1. Simulate the rifle's loading provided with 5 laser shots..  
*Press*   5 sounds
2. Simulate the rifle's bolt operation. You need to do it again after each shoot to unlock the next one.  
*Press*   1 sound
3. Laser shot - a laser point comes out of the rifle at the light's speed.  
*Shoot*   1 sound

### To aim

Look through the riflescope at the very end of the rifle.

The point of impact of the laser is at the centre of the small circle.

The setting covers a distance of 10m.

# GOOD PRACTICE

To aim well:

- Place your head as close as possible to the eye patches
- Keep both eyes open, thanks to the eye patches
- Aim at the target looking at the centre of the riflescope
- Remain steady
- Hold your breathing when you shoot

HEY!

## DO YOU NEED CROSS-COUNTRY SKIING EQUIPMENT?

**Our sport shops have everything you need :**
